LAUNDRY | 2009 EDITION

Fisher & Paykel

ECOSMART™ LAUNDRY

ECOSMART™ CLOTHES WASHER

Saves water

Save up to 24 gallons of water with every load*. *EcoSmart™* far exceeds ENERGY STAR® requirements and is rated CEE Tier II.

Saves time

Our unique direct drive motor allows three spin speeds up to 1000rpm for different fabric types to reduce drying and wash times. Transfer the entire load to our large capacity top load dryer to substantially decrease laundry time.

Saves money

Smarter use of detergent, low water and energy use and load sensing technology ensures your clothes are cared for therefore saving you money.

SMARTLOAD™ TOP LOAD CLOTHES DRYER

Extra large capacity

A 6.2 cu.ft capacity makes it the world's first large capacity dryer resulting in fast dry times.

Self clean lint filter

No messy lint filter to clean – lint is deposited automatically into a lint bucket maximizing dryer airflow and gently speeds up drying.

Reverse tumbling

Reduces tangling so large items are dried evenly and quickly.

TRADITIONAL FRONT LOAD CLOTHES DRYER

Large capacity

6 cu.ft capacity ensure all your washed clothes can be dried in one load.

Moisture sensing

Takes out the guesswork ensuring all items are evenly dried.

Work surface

Usable top deck for a work surface or basket storage.

*Compared to a pre-2004 conventional washer.

Installation options:

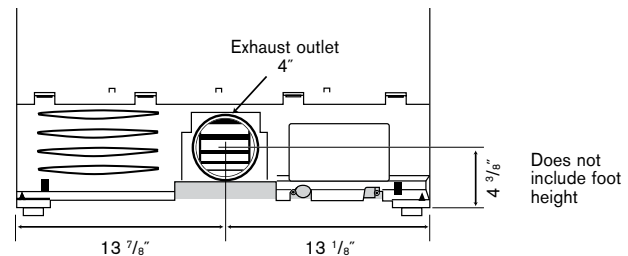

Cupboard or Alcove

The dryer can be located in a cupboard or alcove and positioned next to a clothes washer. Minimum clearances are required.

Exhaust outlet location

These are dimensions looking at the back of the dryer. When looking at the wall to cut the duct hole, dimensions will be the mirror image of these.
